**Re: Sawyer International Airport Passenger Facility Charge (PFC) Program**

**Notice of Intent to Submit an Application to the Federal Aviation Administration to Impose and Use a Passenger Facility Charge (PFC) at Sawyer International Airport and Notice of Consultation Meeting**

Sawyer International Airport is hereby informing air carriers operating at Sawyer of its intent to submit an application for authority to impose and use a Passenger Facility Charge (PFC).

The Airport is issuing this notice as part of the application process under 14 CFR §158.23 and § 158.25 and is providing you with the following information:

- PFC project, project descriptions and justification, and project costs (see Attachment);
- PFC level, proposed charge effective date, estimated charge expiration date, and estimated total PFC revenue;
- Class of carriers not required to collect the PFC;
- Date and location of air carrier consultation meeting; and,
- Acknowledgement of receipt of air carrier consultation meeting notice

**PFC Charge Level, Effective Date, and Expiration Date**

Proposed PFC charge level for this application:	\$4.50
Proposed charge effective date (estimated)	05/01/2019
Charge expiration date (estimated):	12/31/2024

Total PFC revenue to be authorized for collection is anticipated at: **\$1,679,607**

**Class of Carriers Not Required to Collect PFCs**

The Airport requests that Air Taxi Commercial Operators (ATCOs) Filing FAA form 1800-31 operating at the Airport not be required to collect PFC, in accordance with provisions of 14 CFR § 158.11. The FAA’s ACAIS database shows that in CY 2017, Aero Jet Services LLC. was the only ATCOs that operated at

Sawyer Airport. The total enplanement for Aero Jet Services LLC. was 5 passengers, comprising less than one-percent of total enplanements of 50,938. This class of carrier is requested to be exempt based on their enplanement levels, and the cost to the Airport to collect PFCs from this class of carriers.

**Air Carrier Meeting – (30- 45days from date of letter)**

The Airport Manager will meet with interested carriers to present the PFC projects at a meeting to be held on January 17, 2019, at 2 PM EST. in the Second Floor Conference Room of the Airport Services Center.

Air carrier representatives may attend in person or via conference call. To participate via conference call, please contact Airport Manager Duane DuRay at 906-346-3308, ext. 222, or via email at [dduray@mqtco.org](mailto:dduray@mqtco.org) at least 5 (five) days before the meeting date for further instruction.

Within 30 days following the meeting, air carriers must provide the Airport with a written certification of agreement or disagreement with the proposed application, including the reason for any disagreement.

If timely certification is not provided, air carriers will be considered to have certified their agreement.

If you have questions about this notice of the air carrier consultation meeting, please contact Duane DuRay, Airport Manager at 906-346-3308 (ext. 222), or by e-mail at [dduray@mqtco.org](mailto:dduray@mqtco.org),

Sincerely,

Duane DuRay  
Airport Manager
